

Working together in the **management of advanced thyroid cancer:** key considerations

Sunday, 10 September, 11:10–12:10 CEST, Aula Magna Room

Agenda

11:10	Introduction and welcome	Rossella Elisei, Italy (Chair) Sophie Leboulleux, Switzerland (Chair)
11:15	Rapidly evolving biomarker testing in thyroid cancer: optimising detection of molecular alterations	Giancarlo Pruneri, Italy
11:30	Discussion	All; moderated by Chairs
11:45	Making treatment decisions in the management of advanced thyroid cancer: right patient, right time and right treatment – illustration by clinical cases	Lori Wirth, US Moderated by Chairs
12:05	Closing remarks	Rossella Elisei, Italy

Objectives

- > Discuss the benefits of collaborative working in the management of advanced thyroid cancer
- > Discuss shaping and optimisation of testing strategies to improve thyroid cancer biomarker testing
- > Accelerate the translation of clinical evidence into practice for better patient outcomes in the management of advanced biomarker-driven thyroid cancer
- > Exchange clinical experience in the management of biomarker-driven thyroid cancer

Rossella Elisei

Sophie Leboulleux

Giancarlo Pruneri

Lori Wirth
